**Description and Notes:**

Dark oak full size bed with dressers. Movie of this room explains other items in the room as well such as the carpet, curtains and linen used. These other items are also listed individually in the database.

NOTE: Movies can also be used for explaining the operation of an item. Example: you have a older lawn mower. A movie on just that item can explain how to repair and use the item.

The software is very flexible and you can enter as much or as little as needed. Your choice!
